

So many doctors...

HOW WILL YOU CHOOSE?

Find a Doctor

When looking for a doctor, there's a lot to consider. Is the doctor in your network? Is the doctor close to home or work? Does the doctor understand your needs? The decision seems complicated, but the solution is easy.

Medica's Find a Doctor tool takes the guesswork out of finding a doctor or other health care provider, giving you results in just seconds.

Find a Doctor can help you search your network to find:

- Doctors
- Hospitals
- Urgent care/convenience care facilities
- Pharmacies
- Clinics
- Mental health providers
- Dentists

WHY IS IT IMPORTANT TO SEE A DOCTOR IN THE NETWORK?

In short, it saves you money. A network doctor has an agreement with Medica to provide you with discounted rates for their services.

Find a Doctor is accessible on [mymedica.com](https://www.mymedica.com). Or call Customer Service at the number on the back of your ID card for assistance.
